

PRESS RELEASE

UNISYS AND TEXERT PARTNER TO PROVIDE ENTERPRISE RISK MANAGEMENT AND COMPLIANCE SOLUTIONS IN ASIA

Reseller partnership combines industry solutions expertise with proven risk technology to enable comprehensive intelligent risk management

Dallas, Texas, and Hong Kong, August 18, 2009 – Texert today announced that it has been selected by Unisys to provide organizations in Asia with innovative software solutions to help corporations gain early warning risk detection and support an intelligent risk aware enterprise.

The two companies have entered into a reseller relationship that will allow Unisys to resell Texert's risk and compliance suite in Asia. Texert's J-Port® GRC enables corporate enterprises to more effectively manage governance, risk and compliance standards. Using Texert's J-Port GRC, customers can automate, manage and improve risk culture, monitor the risk process, minimize loss events, manage regulatory compliance and ultimately improve business performance.

"Texert brings next generation enterprise and operational risk management product capabilities to enable our customers to help them more effectively manage governance, risk and compliance," said Reuben Khoo, VP & Managing Partner, Global Financial Services, Asia Pacific. "We are pleased to offer our customers a comprehensive solution to integrate an effective risk management program and provide increased visibility and transparency across the enterprise."

Michael Rasmussen, President, Corporate Integrity, said: "Corporate leaders and their respective Boards recognize the need to bring intelligent risk management into strategic business processes. Corporate enterprises in the Asia Pacific market are embracing this philosophy leading to an increased focus on enterprise and operational risk management. This increased demand for risk solutions is strong recognition that organizations need to have a transparent view of risk and performance across the entire enterprise."

Unisys will combine its financial services industry experience and enterprise security expertise with Texert's next generation risk and compliance products to bring transformative risk capabilities to the Governance, Risk and Compliance market. "Texert is proud to partner with Unisys to offer compelling risk management solutions to its customers," said T. Curtis Holmes, Jr., President and CEO, Texert. "Our J-Port® GRC product provides a holistic view of risk and compliance across the enterprise enabling key stakeholders to assess, manage and monitor strategic, operational, financial and legal risks. This

innovative capability combined with Unisys global IT services leadership will deliver real value to customers.”

About Texert

Texert is a leading provider of enterprise risk management (ERM) software solutions. Texert's J- Port ® GRC is the next-generation Governance Risk and Compliance solution that enables a comprehensive, intelligent view of risk across the entire organization. Global customers spanning various industry verticals are utilizing Texert's J-Port ® GRC software to consolidate risk assessments, governance and internal controls into a synchronized risk-aware platform.
